Open House Tesplora - College Fair at St. Paul University Manila

Date: December 2, 2023
Time: 9:00 AM - 12:00 NN
Facilitator: St Paul University Manila - Marketing Department

On December 2, 2023, St. Paul University Manila hosted its College Fair 2023 at the Founders Lobby, a vibrant showcase of the university's diverse academic programs. Among the participating programs, the Computer Science and Information Technology programs orchestrated an engaging booth, offering a glimpse into the experience of being a CSIT student at the institution.

The CSIT students took on the role of hosts for this booth, curating an immersive display that encompassed several interactive elements:

- Informative brochures outlining the enrollment procedures and the curriculum upon enrolling at St. Paul University Manila.
- Engaging mini-games tailored for aspiring computer science students, including a specially developed snake game crafted by CS students. For IT enthusiasts, a task involving crimping an RJ-45 wire to establish a connection between a computer and WiFi or internet was available.
- An intriguing speed typing challenge, inviting guests to test their typing speed on a laptop.

This lively booth not only provided information but also offered hands-on experiences, allowing attendees to explore the essence of studying Computer Science and Information Technology at St. Paul University Manila.
